

2012 Fall Workshop Benedictine University

COME LEARN ABOUT

Prioritizing Limited Resources

Getting the most impact for your money when managing native soil fields.

Basic management of turf on a tight budget.

What the textbooks don't tell you.

Soil Physical Property Management

Managing sand and soil-based fields.

How are they the same?

How are they different?

How does topdressing affect your field?

Tour Benedictine University's athletic fields, including the 2010 STMA Field of the Year

Presented By: Dr. Andrew McNitt

Associate Professor of Soil Science/Turfgrass
Penn State University

Dr. McNitt has been with the Pennsylvania State University for 25 years. He presently is the Program Coordinator for the 4-year turfgrass science major at Penn State.

He conducts research relating to athletic field surface characterization and golf green construction and maintenance.

He has consulted on numerous golf course construction and renovation projects and athletic fields construction and renovation at all levels of play from high school through professional sports complexes. Dr. McNitt is currently the technical advisor to the NFL Groundskeepers Association and is active with the Sports Turf Managers Association.
